EDUCATION

- 2019-2020
Kings Engineering College - 2020-2024
 - Bachelor of Computer Science and Engineering
 - GPA: 7.84
- 2019-2020
BHARATHI MATRIC.HER.SEC.SCHOOL
 - H.S.C
 - Score : 64%

SKILLS AND TECH

- Frontend Development
 - HTML5, CSS3, Python (Core, OOP)
 - JavaScript (ES6+)
 - React.js (Hooks, Context API)
 - Automation & Scripting
 - API Development (Flask / FastAPI / Django)
 - REST APIs & JSON Handling
- Backend Development
 - Node.js
 - Express.js
 - RESTful API Development
 - Authentication & Authorization (JWT, Role-Based Access)
 - Server-Side Validation
- Databases
 - MongoDB
 - Mongoose ODM
 - Firebase (Auth, Firestore)
- Styling & UI Frameworks
 - Bootstrap
 - CSS Flexbox & Grid
 - Component-Based Styling
- Version Control & Collaboration
 - Git
 - GitHub / GitLab
 - Branching & Code Reviews

LANGUAGES

- Tamil
- English
- Telegu

PROFESSIONAL SUMMARY:

Python Full Stack Developer with hands-on experience in building, maintaining, and scaling modern web applications. Proficient in Python, Django/FastAPI, React, RESTful API development, and NoSQL/SQL databases. Experienced in applying clean code principles, modular architecture, and industry best practices. Skilled in mentoring learners and delivering reliable, performance-driven solutions aligned with business goals.

WORK EXPERIENCE:

- Junior Frontend Developer
Debotics Technology and Solution Pvt Ltd | (JAN - JUNE)2024
 - Developed a D-BOT application for precise measurements and instant floor plan generation.
 - Built 3D models and automated area statements for accurate measurement analysis.
 - Implemented backend logic, data processing, and API integration using Python.
 - Technologies: Python, FastAPI/Django, React.js, Firebase, REST APIs
- Junior Full Stack Developer
TPF Software India Pvt Ltd | (JULY - DEC)2024
 - Developed multilingual flight discovery features.
 - Built production-level modules and API integrations.
 - Contributed to real-world deployment.
 - Technologies: Python, Django/FastAPI, React.js, MongoDB, REST APIs
- MERN Stack Trainer (Part-Time)
CADD Training Center | 2025 (Apr - Dec)
 - Delivered structured MERN stack training (Python, Django,MongoDB, Express.js, React, Node.js).
 - Mentored students on real-world projects and industry practices.
 - Covered clean code, REST APIs, authentication, and Git workflows.

- Full Stack Developer(Jan 2025 to Dec 2026) - P SQUARE TECH HUB (Full-Time)
 - Developed cross-platform full-stack web applications using Python backend technologies.
 - Built responsive frontend interfaces and integrated APIs for smooth communication.
 - Managed database operations and backend logic for real-time data handling.
 - Technologies: Python, Django/FastAPI, React.js, MongoDB/PostgreSQL, REST APIs

- Software Developer 2026 - AXESS TECHNOLOGY (PRESENT)
 - Task Management System: Built a full-stack task tracking application with user authentication, CRUD operations, and API integration using Python and React.
 - Inventory Management API: Developed a RESTful API for inventory tracking with role-based access and database integration.
 - Automation & Data Processing Tool: Created Python scripts to automate data handling, report generation, and workflow optimization.
 - Technologies: Python, Django/FastAPI, PostgreSQL/MongoDB, React.js, REST APIs, Git

PROJECTS:

LEARNING PLATFORM:

- Built the complete backend for a production company website, handling contact and quotation form submissions with secure data storage in MongoDB.
- Implemented global and route-level validations, input sanitization, IP-based request rate limiting using Express middleware, and integrated email notifications via Nodemailer.

J SQUARE INFOTECH(COMPANY WEBSITE):

- Developed a responsive and modern company website showcasing services, technologies, and training programs. Focused on clean UI design and optimized frontend performance to enhance user experience.

CERTIFICATES:

- FULL STACK DEVELOPER - Credo Systemz.
- CHATGPT,CLOUD ESSENTIALS.
